

Hungary's Padlet

BERNI K. 2019. MÁRCIUS 10., 17:53

At the beginning:

Our History teacher gave some inspiration in connection with the presentations.

That's how many students came to the first meeting.

Presentations

Everyone made a presentation in pairs or alone. We presented them in front of our teachers. The 6 students who went to Poland were selected from these presenters.

Our logo

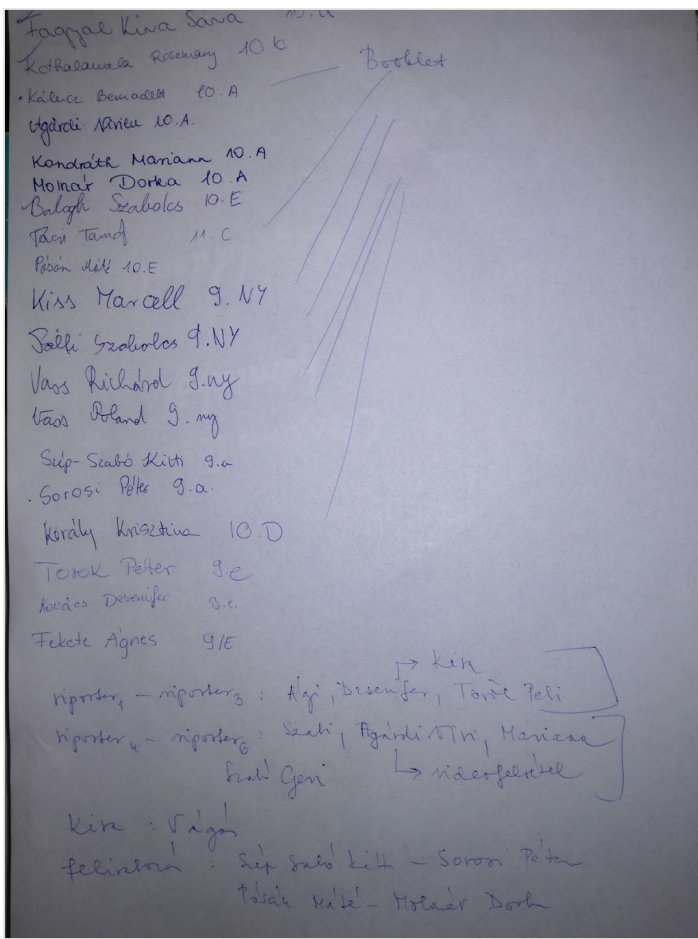

The chosen ones

The students who went to Poland gave us some feedback about their trip. They also presented the same presentation they did in Poland.

We shared work

Skype

In the afternoons some of us stayed a little longer in school to speak with other Erasmus+ students.

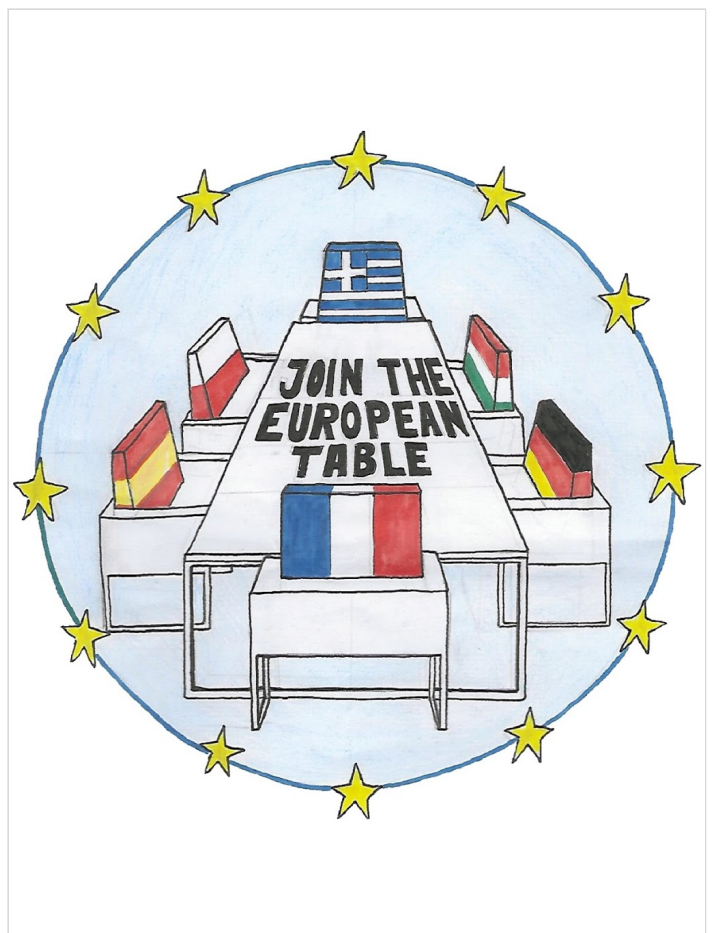

Team booklet

We handed out the chapters of the book and everybody wrote their part at home. After that we put the different parts together.

Logo

This drawing was chosen to be the logo of the program.

Interviewers Team

They made an interview with an immigrant and a refugee. Within the team there were 2 groups. In each team there were reporters, cutters, translators and students who were making the subtitles.

Checking

We gathered together to discuss how the assigned tasks were going.
